St. Paul's United Church Marks 62nd Anniversary

Percy A. Dickieson of Calgary, was speaker at the anniversary supper held in St. Paul's United Church club rooms April 20th, to mark the Church's 62nd anniversary.

Mr. Dickieson, introduced by Stu Murdoch, addressed the 110 persons present and spoke on the "Seven Decades of Decision".

He reminisced on old times in the Crows Nest Pass from 1906 to the present day. He was given a standing ovation for his impressive talk.

Prior to Mr. Dickieson's address the Dickieson family, former residents of Coleman, were introduced by Minister Peter Walker, who also introduced Mrs. Mary Fraser of Calgary and other guests from out of town.

Mayor John Holyk welcomed the

guests and extended the congratulations of the town to St. Paul's United Church, after which Barry Dickieson, accompanied on the piano by his sister Diane, sang a solo.

A sing-song led by Fred Smith of Blairmore, concluded the event. Anniversary services were held in the church Sunday morning, when Mr. Dickieson delivered the sermon. Soloists for the occasion were Barry Dickieson.

While in the Pass the Dickiesons were the guests of Mr. and Mrs. Robert Wood of the Kozy Nest Cabins.

Minor Baseball Meeting

Twenty-one people turned out for a meeting of Crows-Nest Pass Minor Baseball Association held on Sunday afternoon at the Isabelle Selton High School.

The highlight of the meeting was the election of representatives to the executive.

They are as follows: Coleman, Pearl Schlender and Jack Root; Blairmore, Don Burrows and Sam Marra; Hillcrest, Betty Linderman and Ed Jackson. There were no representatives elected from Bellevue due to a lack of representatives at the meeting.

At a short meeting of the elected representatives following the general meeting, the following people were elected to the executive; President, Don Burrows; Vice President, Betty Linderman; Secretary Treasurer, Jack Root.

The executive then dealt with league formation and the problems of registering players, lack of umpires, coaches and score keepers. It was felt that an appeal should be made to the people of the Pass to solicit their help in providing for better baseball in this area. It is hoped that a special effort will be made by those able to assist.

Discussion was also brought up regarding league play. The executive decided to make a special effort to attend a meeting of the league to be held in Pincher Creek in the near future. Others interested in league play are Fort Macleod, Glenwood, Hill spring, Pincher Creek and the Crowsnest Pass.

Mrs. Ella Barnett Passes April 23

Mrs. Ella Barnett passed away in the Pincher Creek Hospital on April 23, 1968, at the age of 52 years.

She was born in Bellevue on January 16, 1916, and has resided there since.

She married her husband George Barnett in Coleman in 1937.

She was predeceased by her father Steve in 1938 in Bellevue.

Survivors include her husband George of Bellevue; two sons, Terry of Calgary and Lawrence at home; one brother, Lawrence, of Bellevue; one sister, Mrs. Joe (Emes) Kapalka, jr., of Kimberley, B. C., and her mother, Mrs. Pasque Rosia of Bellevue; three grandchildren.

Funeral service was held Thursday, April 25 at 2 p.m. in Faintin's Blairmore Chapel, with Minister Peter Walker officiating. Cremation followed.

Pass Old Timer Succumbs

Luigi Vendrasco of Windsor, Ont., passed away in the Veterans' Hospital in London, Ont., on April 15, 1968, at age 82 years.

Mr. Vendrasco, a former well-known resident of Blairmore, was born in Arzene, Province of Udine, Italy, on December 24, 1885. He was a veteran of War One and came to Canada in 1920, settling in Bellevue, where he lived until 1926, when he and his family moved to Blairmore.

He was employed as a miner for West Canadian Collieries until 1945, when the family moved to Windsor, where he became employed in construction. He had been a patient in the Veterans' Hospital for three years.

Surviving are his wife Caterina; two sons, Bruno and Guido, and a daughter, Mrs. Victor (Ada) Kryzyz of Coleman; nine grandchildren and four great grandchildren.

Funeral services were held in Windsor on April 18.

Open Letter From Lawrence E. Kindt

Ottawa, Ont.

It is now going on eleven years that I have been your Member of Parliament for the Federal Constituency of Macleod, and I have some pride and satisfaction in having helped many of you with your personal problems. It was also my duty as a Member to create the conditions to attract industries and stimulate coal shipments to Japan. These coal shipments have grown beyond our fondest dreams, and those who were doubtful in the beginning and feared "ghost towns" in the Crows Nest Pass will agree that the move was sound economically.

The Federal Electoral Boundaries Commission was set up to re-adjust constituency boundaries and as you may know, they cut up the Macleod riding into five pieces, and abolished the constituency name of "Macleod", and attached the pieces to new ridings. Most new ridings have between sixty and seventy thousand people, and the largest piece of Macleod riding in any of the new constituencies is about 18,000 — not enough to win a nomination. This is an old political trick. The Alberta Commission that did the job was created under the Federal Act and consisted of four members — three of them were Liberals.

The main purpose of this open letter is to let you know that I shall not be a candidate for any constituency in the next election, but plan to return to private business. I hope to arrange my time so that Mrs. Kindt and I can spend more time together and perhaps travel occasionally. My warmest thanks go out to my Constituency Executive and friends who have supported me through five successive elections.

In the years ahead, I shall treasure your friendship, and shall look forward to seeing you from time to time. My door will be open to you always, and Mrs. Kindt and I would gladly welcome you at our farm home at Nanton.

Yours sincerely,
Lawrence E. Kindt,
Federal Constituency of Macleod.

Pythians Elect Officers

Rose Lant was elected as Grand Manager of the Pythian Sisters at the grand sessions held in Lethbridge recently.

Also elected from Coleman was Sister Helen Hopkins, who will assume the duties of District Deputy Grand Chief and Mrs. Amy Penney as Grand Temple pianist. The Past Chiefs Association of the Pythian Sisters marked its 21st birthday with a banquet supper held in the Grand Union Hotel on April 17th.

A meeting and whist party followed at the home of M. Amy Penney with prizes being won by Frances Bartollett, Helen Hopkins and Mary Hadas. Lunch was served by hostess Mrs. Penney.

Reports indicated that the recent tea held at the home of Sister Mary Ball had been successful and winner of the draw for the pillow cases was Mary Watson of Bellevue, and the tea prize was won by Mrs. Ethel Hill.

Spring Clean-up Bonfires

(By A. E. Bridges, Alberta Fire Commissioner)

Bonfires are not always fun. Quite often little children start them when there is no adult at hand. I am speaking of bonfires at this time in particular with relation to spring clean-up. We are suggesting a Spring Clean-Up this year for the month of May. Up to this time and during this week we think it is most important to consult the fire chief and give him an opportunity to decide when and where bonfires could be safely lit.

Most cities and large towns do not permit any open burning.

There is a good reason for this and certainly some past unfortunate experiences involving group fires could support this safety rule — "Keep spring clean-up safe by carefully controlling burning and discuss your clean-up plans with your fire chief," says the Alberta Fire Commissioner.

Clarence Schile New Secretary-Treasurer

Clarence F. Schile was appointed as secretary-treasurer for the town of Coleman at the regular meeting April 23rd.

A by-law for the purpose of appointing Mr. Schile was read twice. Mr. Schile was formerly assistant secretary for the town. The town will advertise for a male assistant secretary with applications to be in on or before May 14th.

Gas company foreman Joe Beigun will attend plumbing inspectors' meeting to be held in Pincher Creek on May 7th. Mr. Beigun reported that applications have been received for four gas service hook-ups.

Foreman in charge of the town's sewerage system, Rudy Szymank, reported to council that there was now a total of 190 homes and businesses connected to the sewerage system.

May has been declared as Clean-up Month for the town, and council will provide trucking service to haul away any debris residents wish to load outside of their premises. Owners of derelict cars that

are parked around town, will be contacted to have the units removed as they are unsightly besides being a nuisance.

Several old buildings around the town will also be demolished to improve appearances and make the lots available for other buildings.

Councillor Fred MacLeod, representative on the Crows Nest Pass Regional Recreation Board, read an agreement drawn up by the Board's Joint Use Committee, regarding utilization of all recreation facilities in the area.

The matter is to be studied by local governments in the Crows Nest Pass and after being revised will be presented for ratification.

Town foreman Rudy Szymank was authorized to provide and deliver several truck loads of earth at the local cemeteries for persons wishing to do some work around grave sites.

Dedication Service Held At St. Paul's United Church

George Nelson of Brooks, Alberta, unveiled the baptismal font that was donated to St. Paul's United Church in Coleman by the Nelson families in memory of the late Mrs. Isabelle Rushton at services held April 7th.

During the impressive ceremonies conducted by minister Peter Walker, session member Dave Barras, on behalf of the congregation for the session unveiled and presented a pulpit Bible to the Church in memory of the late Rev. T. M. Murray, a former Coleman minister.

The Bible was provided by the late Rev. Murray's two daughters of Owen Sound, Ont.

Mrs. Mary MacKinnon presented the Church with royal blue velvet communion table runner and pulpit drape in memory of the late Mrs. Elizabeth Dunlop of Coleman.

The presentations were made at special services held Sunday evening, April 14th. During the impressive service the baptismal font had its first use when Minister Peter Walker baptized the infant son of Mr. and Mrs. John

Dean. Following the services a lunch and get-together was held in the church club rooms.

Hockey Banquet May 11th

The Coleman Minor Hockey Club has announced that the annual banquet will be held in the Elks hall at 7 p.m., Saturday, May 11th.

Guest speaker at this event will be William Gibson, ex-native son and a former Lethbridge Maple Leaf hockey player.

Deadline for the purchase of the tickets has been set at Tuesday, May 7th, and these may be obtained from Minister Peter Walker or any coach of the Coleman Minor Hockey teams.

Admission has been set at \$2 per persons or \$3.50 per couple.

Inquest Held

Losing control of the vehicle he was driving due to excessive speed, resulted in John Fairclough of Natal, B. C., drowning in the Crows Nest Lake on March 2nd, 1968.

This was the verdict given by a Coroner's jury investigating the death of three Natal men, John Fairclough, Douglas Latka and Dennis Galla, whose bodies were recovered from Crows Nest Lake on March 4th.

The jury, which deliberated for 35 minutes after hearing the evidence of the accident, recommended that in future the Department of Highways send patrol report to RCMP any findings of damaged or broken guard rail posts or railings in this area for their investigation.

The jury, under Coroner F. S. Radford of Blairmore, comprised foreman Arnold Habetler, Fred Andrisk, Earl Schmidt, Harold Jones, all of Coleman, and John Gray and Hector Varnon of Blairmore.

Dr. Emil Aiello of Coleman, reported on the results of an autopsy performed by Dr. Bainborough of Lethbridge, on Gordon John Fairclough, that indicated that death was due to drowning. The report also showed that there was 13 per cent alcohol in the blood stream.

Evidence given by Constable R. Lawson described the accident scene and provided plans of the area. Evidence indicated that the car, proceeding east, had rounded a corner and the front right wheel had gone over the edge of the pavement and travelled about 150 feet, knocking out four four-by-four road marker posts.

The car then veered left back onto the highway, cutting across the road and striking four five-inch guard rail posts that were broken. The car tracks stopped on the pavement and there were no marks on the gravel shoulder between the road edge and the lake. An eight-inch wide tire track indicated a high rate of speed, he said. The car was later found about 150 feet farther north of the guard rails under 30 feet of water about 30 feet from shore.

Photos taken by Constable Carven Carter of the RCMP and Vern Decoux, showed the accident area and identified Fairclough as the driver of the accident car.

Constable James Isaac of the Calgary City Police Search and Rescue scuba team, stated that the car was on its roof at the bottom of the lake. He advised that Fairclough was behind the wheel of the car and was held there by pressure of the seat. Galla was in the centre and Latka next to him and they were stretched out with their heads towards the rear window.

G. Chatterton of Natal, who saw the car the three deceased youths were riding in about 7 p.m. seemed unable to remember any of his actions during the evening and was told by Magistrate Radford, "You have told us so little I feel you are withholding something." The youth had been given pro-

tection under the Canada Evidence Act.

George Alexander Klemak, a Natal mechanic, gave evidence indicating he had met the three deceased youths at a Natal dance about 10:30 p.m. and that they seemed to be "feeling good" as if they had been drinking.

Ron Fyfe, department of highways night patrolman, stated he came upon the knocked out guard rail poles about 12:30 a.m. Sunday and proceeded to put up marker flags. He said the road was dry. He left a report of his findings on the department of highways desk.

Rudolph Busato of Natal, who was proceeding east to Lethbridge Sunday morning, saw the broken guard rails that were posted with flags. He stated he saw the back bumper and licence plate of the car just under the surface of the water but since the broken guard rails were marked, he assumed the accident had been reported and proceeded on his way.

Seeds Ready For Mail

Close to 100 pair of busy hands packaged and prepared 6,000 envelopes of "Flowers of Hope" seeds that will go out in the mail to all residents in the Chinook Health Unit district by Mother's Day.

Taking part in the enveloping job that was held in the Isabelle Selton school, Blairmore, April 23, were members of the Cheen Club, Job's Daughters, Girl Guides, Volunteer ladies from the Pass towns and Pincher Creek and members of the Foothills Association for Retarded Children who sponsored the event.

Canvassers will be around to pick up the donation envelopes on May 15, but should some homes be missed, donations should be mailed in the stamped envelope that is enclosed in the packet.

Proceeds from the "Flowers of Hope" campaign provides diagnostic services, adult training centres, research projects, special education and many other essential services dedicated to helping the mentally retarded in our communities.

Red Cross Civic Campaign

The Catholic Women's League of Coleman recently completed the annual Red Cross campaign for funds. A total of \$460.16 was collected — a note quite reaching the quota of \$475.

The League would like to express their appreciation to the canvassers and to the citizens of the town and district for the interest and support of the work being done in the province by the Red Cross Society.

Don't Tangle With Granny

It's sure nice to have a hand with the chores — even if the helpers do get a little surly at times. Fortunately Granny is capable of handling any situation. It's not unusual for escapees from the zoo to turn up at the Clamptett house as you probably know if you watch the Beverly Hills Saturdays (in color) on the CBC television network.

ALLERGY

If a person gets a rash, or hay fever, or asthma, when he or she is near a horse, the treatment is obvious: stay away from horses. This is simple if the person hardly ever sees a horse. However, the problem becomes a little more serious if the patient is a jockey who is in constant contact with horses.

In such cases where an allergy is identified as one the patient cannot treat himself by avoiding the cause, the doctor will determine the severity of the allergy. If it's mild, then medical treatment with drugs and with desensitization by injection will minimize the symptoms and keep the condition under control.

Where an allergy has continued for some time, it is important to seek medical advice, says The Canadian Medical Association.

The doctor will take a careful history in order to determine, if possible, the factor or factors,

which may be responsible for the allergy. If he can determine the sources of the trouble he will, of course, try to eliminate it from the patient's environment.

Some patients with allergies are cured, but many, especially those with a strong family history of eczema, hay fever or asthma, may have trouble from time to time. They may have trouble with skin, they may get hay fever, they may wheeze from time to time, and this may go on for years. However, these symptoms may be controlled by treatment prescribed by a doctor, or minimized by injections designed to desensitize that patient so he can withstand the irritating effect of substances which cause the allergies.

The C.M.A. says it is very important not to use the over-the-counter remedies for eczema, hay fever or asthma. Sometimes the treatment can be worse than the disease if it is not carefully prescribed by a competent physician.

Spring Clean-up Campaign Painting Hazards

(By A. E. Bridges, Alberta Fire Commissioner)

Paint up! But guard against painting hazards.

Just when you think of planning to go fishing, someone will try to con you into painting the kitchen. Kitchen and painting jobs around the home usually get started during clean-up week or after. It sure is a good program providing you don't fall off the ladder or spill the paint.

The other day I learned of a fellow who was washing his paint brushes in gasoline. WOW, and that was right in the home, too. You guessed it, he had a flash fire and suffered serious burns, and a complete re-decorating job had to be done to the walls and ceiling.

If you are a handy man and also smart enough to be a good interior decorator, be sure you are smart enough not to leave any paint rags in a corner or stuffed into your coverall pockets. Only paint rags heat spontaneously. So this Spring Clean-Up Week keep in mind the fire hazards and keep paint and oils well away from fire and guard against spontaneous heating of paint rags.

Be safe and destroy all paint rags at the end of each day's work.

If you follow these rules, you will be helping the Chambers of Commerce Spring Clean-Up project and also saving your fire department an emergency call.

Cancer Researcher Receives Ayer's Award

Dr. J. F. Henderson, 34, Associate Professor, Cancer Research Unit, McEachern Laboratory, and the Department of Biochemistry at The University of Alberta, has been awarded the Ayer's Award for 1968 by the Canadian Biochemical Society.

The award recognizes meritorious research in biochemistry in Canada, and is designed to stimulate fundamental research by younger biochemists in Canada. It carries a \$1,000 personal award provided by Ayer's Laboratories. As recipient of the award, Dr. Henderson will give a lecture on "Purine Metabolism and Human Disease" to the annual meeting of the Canadian Federation of Biological Societies in Kingston, Ontario, June 12 to 14.

Dr. Henderson, a graduate of the Universities of Arizona and Wisconsin, has been on staff at The University of Alberta since 1963. Prior to his appointment here, he was active in research at The George Washington University School of Medicine; Stanford Research Institute; the University of Wisconsin and the University of Arizona.

He was Visiting Scientist to the Section on Human Biochemical Genetics at the National Institute on Arthritis and Metabolic Diseases for three months early in

1967.

Dr. Henderson is a member of the Canadian Biomedical Society, the American Chemical Society, the American Association for the Advancement of Science, the American Association for Cancer Research, the American Society of Biological Chemists, Phi Lambda Upsilon and Sigma Xi.

Conference Proceedings On Aging

The proceedings of the first Alberta Conference on Aging held in Edmonton last November have recently been published.

The Conference, which attracted more than 200 persons, was held to promote a climate of understanding and sensitivity to the aging process in individuals and an awareness of the special needs of aging people in Alberta. It was also held to foster the need for Community action, with, and for, aging citizens.

Copies of the proceedings are available to the public and may be obtained by contacting the Alberta Council on Aging, care of Mrs. Hilda Clark, 10494 - 133 St., Edmonton, Alberta.

Elks name bingo winners

Winners of prizes at the Elks bingo night were:

\$15 each, Marge Kubica, S. Fontana, Mary Tiffin, Mrs. J. Mills, Irene Poch.

\$12, Mrs. A. Sprlak and one split by Mrs. Galvon, Mr. Raski, Mrs. Phillips and Muriel Russell.

\$10, Mrs. R. Cox, split by Ed Nuttal and Mrs. Roy Gingsas and by Mrs. Phillips and Mrs. Spivak.

\$15, split by C. Collings, Mrs. Galvon and Mrs. Cox.

The next bingo to be held on May 3 will feature a \$150 cash prize for the first blackout in 58 numbers and a \$45 six number bingo.

Lions announce bingo winners

Margaret Roughhead and Ellen McDonald of Coleman, each won \$50 at the Lions bingo night recently.

Winners of other prizes were:

\$12, Peggy Vejprava, Mrs. John Hardy, Doreen Collings, Emily Hruby.

\$10, Albert Fauville, Ed Nuttal, Ruby Northy, Farina Langille.

\$6, Frank Kuhn, Jack Goulding.

\$5, Anne Dorusuk, Mrs. A. Kry-

wolt, Farina Langille, Lucy Cyko.

\$1 each, Rena Jean McLeod, Mrs. J. McCulloch, Alice Cornish,

Mr. Florio, Marilyn Hurtak, Mrs. J. Ulrich and Mrs. T. Cunningham.

The next bingo will be held on May 8th when besides the \$100 to go bingo and \$35 in six numbers, five \$12, five \$10, and a number of other bingos will be offered according to attendance.

Disposable income is called 'take home pay' because after taxes and deductions you can't afford to go anywhere else with it.

Child Safety Day Sunday, May 5

The year-round safety of children is the objective of a nationwide Child Safety Day observed on the first Sunday in May each year. This one-day awareness campaign is promoted across Canada by the National Safety League of Canada and the Canadian Highway Safety Council. The clergy of all faiths together with national and provincial associations and organizations and the news media are being asked to take a prominent part in directing attention to the high, neglected incidence of accidents among children and encourage every possible measure

for the reduction of this needless loss of life and injury.

In Canada each year more than 2100 children under age of 15 die from accidents and around half a million are injured. Most of these accidents could have been prevented and should never have happened. A national summary of child fatalities has been prepared and, although it is not complete, it shows major accident causes.

The population of Canada is younger than most people think. One out of every three people, or more than six and a half million Canadians, are under the age of 15. The importance of protecting this age group cannot be over-emphasized as they form a major part of our great national re-

source.

The appalling toll of our youth taken annually by accidents should be of great concern to all Canadians. More children die from accidents than from the next four causes of child deaths put together—cancer, diseases of the respiratory system (pneumonia, bronchitis, etc.), birth defects and diseases of the digestive system—gastritis, duodenitis, etc.

Today's children live in an increasingly complex world. An important part of their education is learning how to live safely in our modern, fast-moving society. It is the responsibility of all adults to guide and protect children from the hazards that surround them.

Accidents do not just happen. A

set of circumstances which with a little foresight, could have been avoided, all too often costs a child's life or results in injury.

Grape Varieties For Home Gardens

SUMMERLAND, B. C., March 12—Home gardeners wishing to grow grapes should choose one of the varieties of the native North American *labrusca* species, advises Dr. D. V. Fisher, head of the Pomology Section of the CDA Research Station here.

These varieties are productive and resistant to damage from disease and insects. They are hardy, too; they can withstand winter temperatures as low as 15 degrees (F.) below zero with little effect on the next year's crop.

Because they are well adapted to Canadian conditions, they will provide home gardeners with good dependable yields of grapes that are excellent as fresh fruit or for making juice and jelly, Dr. Fisher says.

Several varieties that are early to mid-season in maturing can be grown in areas where the average temperature is at least 65 degrees in July and August, and 55 degrees in June and September. They are Portland, a green grape and the blue varieties Patricia, Campbell Early, Van Buren and Kendaia.

The blue varieties Bath and New York Muscat may be grown along with the others in areas having an average temperature of 70 degrees in July and August and at least 60 degrees in June and

September. Both Bath and New York Muscat produce grapes of very high quality.

Providing the summers are warm enough to produce a crop, grape growing is feasible even in areas where the temperature in winter regularly drops to under -10 degrees Fahrenheit and may go down to -30 degrees for short periods. In these areas, however, it is important that new cane growth, which will bear next season's crop, be protected from the cold.

This is accomplished by pruning back the trunk to a very low height, leaving intact the new fruiting wood near ground level. These low canes are laid on the ground after leaf fall and covered with a blanket of soil eight inches thick. After the risk of frost is past in the spring, the canes are uncovered and trained up on wires.

A new 70-page bulletin titled, "Grape Growing in B. C." contains information on all aspects of grape production and is available upon request from the CDA's Research Station at Summerland.

Prosperity Brings Its Own Problems

In every generation problems plague us. We are discovering that "plenty" brings its peculiar dilemmas just as depression did 30 years ago.

Consider the cushions that surround the young adult today. He has a five-day week, guaranteed holidays, a portable pension. His household is protected against hos-

pital bills and it will soon be free of heavy doctors' fees. His wife receives the family allowance — and should he be laid off, there is unemployment insurance to tide him over until Canada Manpower Centre finds him another job.

Economists, for several years now, have been talking about a guaranteed income for everyone as a way to keep factory wheels turning steadily, and politicians like the Hon. Joe Green believe it will soon actually come to pass. Utopia? Not quite!

Ease can corrupt as surely as deprivation. Just as no one works well shackled by poverty, debt and fear, neither is he mentally healthy unless he finds purpose in whatever he does.

Automation continues to diminish hard labor and the need for skill. Watching a pointer, throwing a lever at intervals, while vitally necessary, can be the ultimate in boredom.

What must come are creative

hobbies and "second jobs", the latter voluntary and altruistic.

Mentally and physically handicapped people need help; so do immigrants with language problems and Indian Metis young people adjusting to life off reservations. Boys and girls need supervised recreation and leadership. Every community has its own particular requirements.

It takes a lot of prodding to evoke this sort of self-investment. Economic security can release the capacity of a John Fitzgerald Kennedy or it can rob us of challenge and hope. It all depends upon our motivation.

Earn a place in someone's heart Give to the Red Shield Appeal

The unwanted children, the aged, the destitute, the alcoholics, the potential suicides, all the thousands in distress turn to The Army. The Salvation Army never refuses

a call for help. To provide the homes, hospitals, clinics, and other services necessary for the dignity of humanity, The Salvation Army needs your help.

If you own 1959 Canada Savings Bonds

Here's a special offer just for you

The Government of Canada has created a special new high-yielding security for the advance refunding of 1959 Canada Savings Bonds. These Special Replacement Bonds will be dated May 1, 1968, and will mature in 10 years 5 months on October 1, 1978. They will be available only in exchange for an equal amount of 1959 Canada Savings Bonds, and not for cash. Their average annual yield to maturity will be 6.88%. They will retain all the standard features which have made Canada Savings Bonds the most popular investment in Canada's history. This includes the right to cash them any time at any bank for full face value plus earned interest.

In addition, Special Replacement Bonds offer the opportunity to double your money. If you choose not to cash your regular interest coupons during the life of the bond, 3 Compound Interest Certificates then become payable for a total of \$280.00 extra (on each \$1,000.00 bond). This amount plus your regular interest coupons doubles your money. You can take advantage of this compound interest feature in various ways.

And that's not all. There will be two Prepayment Coupons, cashable May 1, 1968, attached to each Special Replacement Bond. They represent the 6 months' interest already earned by your old bond and the prepayment of the 3% non-taxable premium originally due November 1, 1968. On a \$1,000.00 bond, these two Prepayment Coupons will be worth a total of \$55.00.

The exchange procedure is simple. Take your 1959 Canada Savings Bonds to your bank, authorized investment dealer, trust or loan company. They will make all arrangements for you. Exchange your 1959 Canada Savings Bonds for the new high-yielding Special Replacement Bonds without delay. This offer expires on May 15, 1968.

How to recognize your 1959 Canada Savings Bonds

First, the serial number in red in the upper corner of each bond is preceded by "S14" in black. Second, the name of the issue, "Canada Savings Bond" "1959 Series" is shown just below the serial number.

SPRING CLEAN-UP

The Council of the
TOWN OF COLEMAN
HAS PROCLAIMED
May 1st to May 31st
AS
- SPRING -
CLEAN-UP MONTH

The co-operation of all residents is requested in
an endeavor to make Coleman a Cleaner,
Neater and More Attractive Place in
which to live. **THANK YOU!**

Clean-Up! Paint-Up!

Town of Coleman

The Council of the Town of Coleman is hereby authorized under By-Law 365 to:

- Prevent and compel the abatement of nuisances generally, and regulate untidy and unsightly premises.
- Make orders to remedy such conditions, or to demolish and remove any unoccupied building, structure, or erection, if in their opinion the structure or erection, is, by reason of its ruinous or dilapidated condition dangerous to the Public safety or health.
- Provide for the eradication of dandelions and noxious weeds or plants and the cutting of grass on public or private property.
- Provide for the removal or pruning of trees or shrubs on private property or otherwise, that in any way interfere with or endanger the lines, poles, conduits, pipes, sewers or other works of the Town.
- Prohibit, eliminate or abate noise.

The Homemaker

(Miss Patricia L. Peters, District Home Economist, Box 40, Claresholm, Alberta. Phone 235-3242. Cardston, Phone 668-3462. Pincher Creek, Phone 627-3130 or 627-4022)

Careers in Home Economics:

Dietetics and Nutrition:
A girl whose interest lies in the fields of food and nutrition will major in DIETETICS in the last two years of her university training whether she expects to become a Hospital Dietitian, where she works closely with medical specialists, or to cater to the general public as a Commercial Dietitian, perhaps in a university dining hall or directing industrial cafeteria. In either case, she will have to intern for a year to qualify. Sponsorship for dietetic internships is provided by the Canadian Air Force and the Canadian Army, The Royal Canadian Navy and the RCMP also employ dietitians.

The career of a Hospital dietitian might be regarded as a special branch of the medical field. Whereas a nutritionist is primarily concerned with safeguarding the health, the dietitian has as her main objective, the treatment, and cure of the sick. To do this successfully she must apply the findings of research and modern medical practice to the feeding of patients within the hospital.

In addition she serves the food needs of the staff personnel, including the doctors, nurses and students. She must be qualified to undertake duties that may vary in one typical day from helping to select the draperies and china for the personal dining room, to outlining the specifications for the letting of a contract for meat purchases.

The career of a Commercial Dietitian appeals to the individuals who prefer to serve the well public as opposed to hospitalized persons. All must eat to live. An increasing proportion of our population eats at least one meal a day in a public eating place.

There has never been a sufficient of dietitians to meet the need of the many exclusive clubs, hotel dining rooms, cafeterias, university residences, tea rooms, etc. which would gladly call for her services were she available.

Public health Nutritionists or nutrition consultants are required by both the federal and provincial governments, as well as larger city health departments. Occasionally medical clinics hire them and experienced dietitians to set up private consulting services.

Various primary industries — dairies, bakeries, meat and fish industries — are anxious to employ nutritionists on their staff.

With additional experience as a dietitian or nutritionist, there are openings with the United Nations agencies such as FAO, WHO, UNESCO and UNICEF, which afford an opportunity to travel.

Receive Certificates

Pedro Giacometti of Blairmore, Olive Smith of Coleman received their 20 pint donor certificates from Anna Fabro, representative of the Crows Nest Pass Red Cross Blood Donor Clinic.

The spring clinic held in the Elks hall on April 19th, resulted in the Red Cross team collecting 152 bottles of blood.

Quota had been set at 160 bottles. Last year's clinic resulted in 143 bottles being collected and 136 being returned to the Pass for use.

Thanks has been expressed to the Crows Nest Pass Nurses' Association, the Ladies Auxiliary to the Crows Nest Pass Hospital, the donors, the boys of the Isabelle Sellen high school, the BPOE for free use of the hall, the OORP and the Coca-Cola company for refreshments.

Card of Thanks

The Coleman Junior Forest Wardens and Girl Forest Guards would like to thank all those who contributed to their recent Bottle Drive.

If you destroy a free market, you create a black market. If you have 10,000 regulations, you destroy all respect for law — Sir Winston Churchill.

from 2 to 5.30 p.m.

Everybody Welcome

Mr. and Mrs. W. Tymchyna and family of Cranbrook were Easter visitors at the home of Mr. and Mrs. Steve Penney.

Our Water Supply

Without water we could not live. Our farms must have it to grow the crops and raise the animals that give us food and clothing. Our homes must have it for drinking, washing and cooking. Our towns and cities must have it for fire protection, sanitation and recreation. Our industries must have it to produce power and light, to use as a solvent, as a cooling agent, as a means of waste disposal, or as part of finished products.

And yet, how many of us give any thought to where the water, so necessary to life, comes from?

How many of us realize that too often our wells go dry, streams dwindle, communities are plagued by alternate shortages and floods because—far away in the hills the watersheds have been severely damaged by fire, by too much grazing, by improper logging, or by other abuses of the land?

Whatever the present situation, the future demands of a rapidly expanding Canadian population will call for the best in forest management, for timber, water, and power production.

Let's give Nature a chance to be a partner, the willing, tireless and efficient operator of the greatest water supply and filtration system ever devised, on the slopes of Canada's green hills, our forest and water heritage.
